

Wastewater Products

Micro-Bac's wastewater line of microbial solutions provides a clear advantage to those committed to safe management of liquid waste disposal.

Standard Wastewater Products

- | | |
|------------------------------|---|
| Mega-Bac X | – grease, animal waste |
| Micro-Bac | – odors, lagoons, lakes |
| Lacto-Bac | – milk, cheese proteins in milk related food processing |
| Mega-Bac TF | – H ₂ S control, septic tanks, odors, lagoons, sludge, grease, confined animal waste |
| Mega-Bac X Granulated | – sludge digestion, municipal and other waste |
| MBI-500 | – grease agricultural waste |
| MBI-500 Granulated | – grease agricultural waste |

Specialty Wastewater Products

- | | |
|---------------------|--|
| Mega-Bac B1 | – aerobic brewery waste |
| Mega-Bac B2 | – anaerobic brewery waste |
| Mega-Bac C | – tomato waste, citrus, other acidic vegetable waste |
| Mega-Bac XA | – anaerobic digesters and methane production |
| Mega-Bac XLT | – leather tanning |

Biodegradable Waste Water Applications

Bakeries	Fruit Processing	Sausage Plants
Breweries	Meat and Poultry	Schools
Cafeterias	Milk (Ice Cream)	Supermarkets, Delis
Cheese Processors	Potato Chips	Waste Lagoons
Confined Animals	Rendering	Wastewater Collection
Food Processing	Restaurants	Wastewater Treatment
